8. The preferred access for hemodialysis
9. A functional unit of the kidney
10. An over-the-counter drug that PKD patients should avoid
11. More than 14 _____ people have PKD worldwide

Down:

2. The acronym for Polycystic Kidney Disease
3. _____ Filtration Rate (GFR) is usually expressed as a % of remaining kidney function
4. The most common symptom of PKD
6. ARPKD causes scarring or _____, which destroys the healthy tissues in the kidney and liver

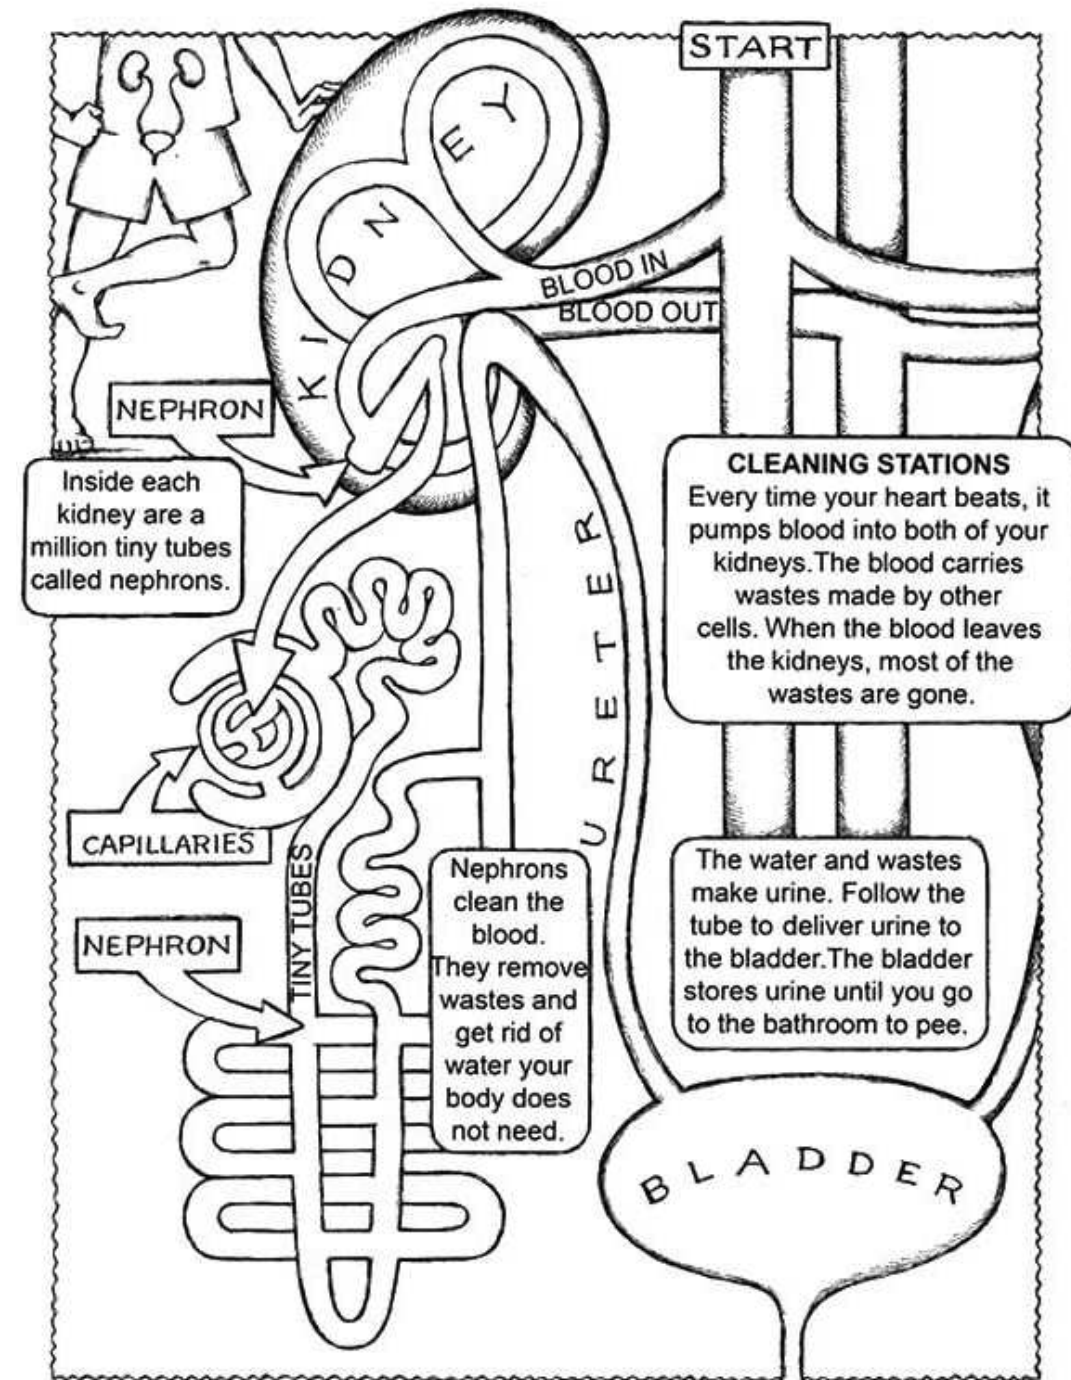

Answers: Across: 1) Nephrologist 5) Bumpy 7) Creatine 8) Fistula 9) Nephron 10) Aspirin 11) Million
 Down: 2) PKD 3) GFR 4) Hematuria 6) Fibrosis

Download the Logan Bumpy Kidney app from the app store and create your own story!

PKD color sheet and maze

- Blood Pressure
- Nephrologists
- White Blood Cells
- PKD
- Cysts
- Nephron
- Creatine
- GFR
- Transplant
- Kidney

If you want to give directly to ARPKD research, you can give to the University of Alabama at www.uab.edu/give/arpkd

If so inclined, you can set Logan Wiesman as the Honorarium
